In order for Channel 234A to be allotted at Knippa,

equal channels while still providing for complete city

Petition for Rule Making FM Channel 234A Knippa, Texas December 3, 2003

Attachment A

Request to Reclassify
Station KAMX(FM), Luling, Texas
Pursuant to MM Docket 98-93

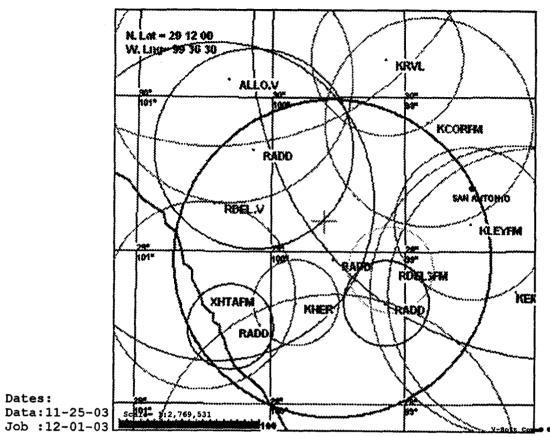

Radio Station KAMX(FM), Luling, Texas is licensed to Texas Infinity Radio L.P., 2000 K Street, N.W., Suite 725, Washington, DC 20006-1809, (Facility ID 48651), FCC File No. BLH 19980225KD. The facility operates with a power of 99 kilowatts with center of radiation 398 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Katherine Pyeatt respectfully requests that the license of Radio Station KAMX(FM) be modified to specify operation on FM Channel 234C0 instead of on FM Channel 234C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Katherine Pyeatt, the proponent of Channel 234A at Knippa, Texas, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KAMX(FM) as a Class C0 facility. Katherine Pyeatt certifies that no alternative channel is available for the service he proposes at Knippa, Texas as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Texas Infinity Radio L.P., as is required in the above Docket.

Federal Communications Commission Washington, D.C. 20554

Mr. Charles Crawford 4553 Bordeaux Avenue Dallas, Texas 75205

Dear Mr. Crawford:

RECEIVED & INSPECTED

0CT 2 9 2004

FCC - MAILROOM

This is in response to the petition for rule making you filed on May 23, 2003, requesting the allotment of Channel 250A at Knippa, Texas, as the community's first local aural transmission service. To accommodate the allotment, you also requested (1) substitution of Channel 234A for vacant Channel 250A at Batesville, Texas; (2) substitution of Channel 295A for vacant Channel 234A at Brackettvillle, Texas; (3) substitution of Channel 271C2 for vacant Channel 295C2 at Rocksprings, Texas; (4) substitution of Channel 233A for vacant Channel 271A at Camp Wood, Texas; and (5) substitution of Channel 300A for vacant Channel 272A at Sonora, Texas.

We have reviewed the proposal and find that it is unacceptable for consideration at this time. An engineering analysis has determined that the proposal is in violation of Sections 73.207(b)(a) and (b)(3) of the Commission's Rules. Specifically, at the coordinates you specified (29-10-48 NL and 99-37-30 WL), the proposal is short-spaced to the reserved allotment site for Channel 251C3, Camp Wood, Texas, and the allotment site for Channel 250A, Piedras Negras, Mexico. Additionally, the proposed coordinates (29-39-48 NL and 100-08-12 WL) for the substitution of Channel 233A for vacant Channel 271A at Camp Wood, Texas, is short-spaced to Station XHTA-FM, Channel 233AA, Piedras Negras, Mexico.

Based on the reasons stated above, we are returning your petition for rule making. If you wish, you may refile your petition provided it meets all of the technical requirements of the Commission's Rules.

Sincerely,

John X. Karousos
